

Project Hardware NQ Anti-Slip

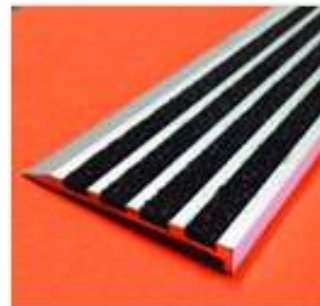

SAFETY STAIR NOSINGS

Project Hardware NQ anti-slip safety stair nosing's are manufactured from reinforced aluminium extrusion and anodised to provide a long term, attractive, safe solution. Designed to meet the requirements of AS1428.4. They comply with the Building Code of Australia and the Disability Discrimination Act (DDA), and available with a range of high visibility polymeric and carborundum inserts to provide a safe environment both inside and outside. Project Hardware NQ anti-slip safety stair nosing's can be supplied pre-drilled, counter sunk and cut to length, ready to install. Available per metre or in 3.7m lengths.
